

Application No. 10/678,288
Amendment Dated February 26, 2007
Reply to Office Action of November 30, 2006
Attorney Docket No. 2204-031822

REMARKS

Claims 1 and 2 stand rejected under 35 U.S.C. §112, second paragraph, for indefiniteness regarding the limitation of how the complex oxide is produced.

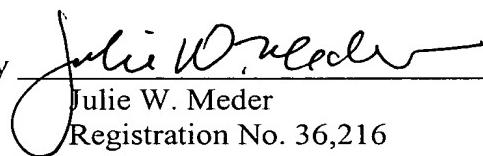

Claim 1 has been amended to clarify the claim language to recite that co-precipitation of the catalytic-activity and carrier-forming constituents on a surface of the porous carrier body results in a complex oxide.

Claims 1 and 2 are believed to be in condition for allowance.

Respectfully submitted,

THE WEBB LAW FIRM
